CZ	Průběh vývoje je velmi rychlý, zejména v období 1. třídy, kdy je pozorován výrazný pokles v průměrné délce těla a výšce těla, což je způsobeno rychlým růstem a vývojem.	PL	Przebieg rozwoju jest bardzo szybki, szczególnie w okresie 1. klasy, kiedy obserwujemy wyraźny spadek średniej długości ciała i wysokości ciała, co jest spowodowane szybkim wzrostem i rozwojem.
DE	Der Verlauf der Entwicklung ist sehr schnell, besonders in der 1. Klasse, wo ein deutlicher Rückgang der durchschnittlichen Körperlänge und -höhe zu beobachten ist, was auf schnelles Wachstum und Entwicklung zurückzuführen ist.	PL	Przebieg rozwoju jest bardzo szybki, szczególnie w okresie 1. klasy, kiedy obserwujemy wyraźny spadek średniej długości ciała i wysokości ciała, co jest spowodowane szybkim wzrostem i rozwojem.
ES	El desarrollo es muy rápido, especialmente en el primer curso, donde se observa una disminución significativa en la longitud y altura medias, lo que se debe al rápido crecimiento y desarrollo.	PT	O desenvolvimento é muito rápido, especialmente no 1.º ano, onde se observa uma diminuição significativa no comprimento e altura médias, o que se deve ao rápido crescimento e desenvolvimento.
FR	Le développement est très rapide, particulièrement en 1.ère année, où l'on observe une diminution marquée de la longueur et de la hauteur moyennes, ce qui est dû à une croissance et un développement rapides.	HU	A fejlődés nagyon gyors, különösen az 1. osztályban, ahol megfigyelhető a testhossz és a testmagasság átlagának csökkenése, ami a gyors növekedés és fejlődés miatt következik be.
GB	The development is very rapid, particularly in the first year, where a significant decrease in average body length and height is observed, which is due to rapid growth and development.	RU	Развитие происходит очень быстро, особенно в первом классе, когда наблюдается значительное уменьшение средней длины тела и роста, что связано с быстрым ростом и развитием.
HU	A fejlődés nagyon gyors, különösen az 1. osztályban, ahol megfigyelhető a testhossz és a testmagasság átlagának csökkenése, ami a gyors növekedés és fejlődés miatt következik be.
